

# Nagy Luca

SENIOR QA ENGINEER

Hungary

✉ lucanagy@protonmail.com | 🌐 lucanagy

## Summary

---

With seven years in QA engineering, I bring a comprehensive grasp of the software development life cycle, actively contributing across its phases. Proficient in software release management, adeptly utilizing both manual and automated testing methodologies. Skilled in requirement analysis, risk assessment, and making informed decisions on software maturity. Well-versed in process administration and delivering comprehensive status reports. Experienced in mentoring QA engineers within the team and conducting technical job interviews for new hires.
